DETAILED ACTION

Allowable Subject Matter

1. Claims **3-30** are allowed.
2. The following is an examiner's statement of reasons for allowance:

Regarding claims 2-26, the prior art fails to teach or fairly suggest a method of transmitting or retransmitting a packet in a system using a modulation and coding scheme wherein any transmission attempt of the packet of a plurality of permitted transmission attempts satisfies a constraint that a residual packet error probability after M_{\max} is below a desired target error rate.

Regarding claims 27-30, the prior art fails to teach or fairly suggest a method of transmitting or retransmitting a packet in a system using a modulation and coding scheme based on resource allocation, wherein resource allocation determinations are made using a pre-computed matrix data structure, containing the total resource cost and an indicator function of success or failure or a conditional probability of failure, which is row indexed by an ensemble of channel conditions and column indexed by the resource allocation (MCS) combinations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Betty Lee whose telephone number is (571) 270-1412. The examiner can normally be reached on Monday-Thursday 9-5 EST and alternate Fridays.
